Examiner's Comment/Examiner's Amendment/Reasons For Allowance

Examiner's Comment

In applicant's amendment received 11/13/00, applicant first requested the cancellation of claim 22 and then set forth an amended claim 22. For applicant's information, the amended claim 22 was not entered due to the cancellation of the claim. This was brought to the attention of applicant's representative, Mark A. Litman, in the interview of 1/2/01 who stated that it was applicant's intention to cancel claim 22 and not amend it.

For applicant's further information, the numbering of the claims is not in accordance with 37 CFR 1.126 which requires that when new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not). Specifically, applicant had two claims numbered "38" and two claims numbered "39". The amended claims 38, 39, 38, 39, 40, 41 have been renumbered 38, 39, 40, 41, 42, 43 respectively.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark A. Litman on January 2, 2001.

Art Unit: 2873

The application has been amended as follows:

1. Claim 20, line 1, delete "7" and insert -5-;
2. Cancel claims 40 and 42.

Reasons For Allowance

The following is an examiner's statement of reasons for allowance: none of the prior art either alone or in combination disclose or teach the claimed combination of limitations to warrant a rejection under 35 USC 102 or 103. Specifically, with reference to independent claims 5 and 23, none of the prior art either alone or in combination disclose or teach the claimed combination of limitations including an injection molded polymeric ophthalmic lens comprising the claimed laminate bonded thereto with the claimed resinous layers and functional layer with the first resinous layer bonded to the convex surface of the lens and specifically further wherein the first resinous layer is fused to the lens. Specifically, with reference to independent claim 7, none of the prior art either alone or in combination disclose or teach the claimed combination of limitations including an injection molded polymeric ophthalmic lens comprising the claimed laminate bonded thereto with the claimed resinous layers and functional layer with the first resinous layer bonded to the convex surface of the lens and specifically further wherein the lens comprises polycarbonate resin and the functional layer comprises a photochromic layer. Specifically, with reference to independent claim 9, none of the prior art either alone or in combination disclose or teach the claimed combination of limitations including an injection molded polymeric ophthalmic lens comprising the claimed laminate bonded thereto with the claimed resinous layers and

functional layer with the first resinous layer bonded to the convex surface of the lens and specifically further wherein the resinous layer is adhesively bonded to the lens and the functional layer comprises a photochromic layer. Specifically, with reference to independent claims 24-25, none of the prior art either alone or in combination disclose or teach the claimed combination of limitations including an injection molded polymeric ophthalmic lens comprising the claimed laminate bonded thereto with the claimed resinous layers and functional layer with the first resinous layer bonded to the convex surface of the lens and specifically further comprising the claimed extruded layer or layers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
